## Long-term planning for Open Space Park

City council members would like to engage public feedback on options for the future use of portions of Open Space Park, specifically the location of Heritage Village and a proposed indoor turf facility. As they consider three proposed concepts, which range from having both Heritage Village and a turf facility on the Open Space site to having one or the other move to a different location, the council is hoping to have a community open house in early 2021.

"We want to create some dialogue, and an open house is a forum where you can have discussion

back and forth," Councilmember Dale Vander Berg said. "We're looking to make a decision for Sioux Center not for tomorrow, but for 10, 20, 25 years from now."

The first concept places the indoor turf facility and parking north of the football field and practice field, replacing two existing recreation softball/baseball diamonds there. Heritage village would remain in the same location, with added commercial-type development in the current fairgrounds footprint. The second concept suggests moving Heritage Village to a new site, placing the indoor turf facility and its related parking in the current Heritage Village area, and adding a park space where the fairgrounds currently sit. The third concept would place the indoor turf facility just east of the existing football field and track, using some of the Heritage Village space, but leaving most of Heritage Village in its current location. The council discussed working with the Heritage Village Board and the Joint Use Committee to lead an open house together in early 2021. A date has not yet been set.

The concepts are online for public viewing at [www.sioxcenter.org/openspace](http://www.sioxcenter.org/openspace)
